Eye-catching Video Wall Displays

With built-in video wall function, HYUNDAI Video Wall Displays are dedicated for multi-screen installations. For this reason no additional equipment, such as video split processors, will be needed.

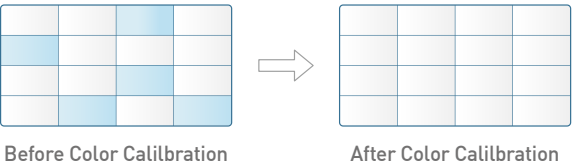

Ultra Narrow Bezel Design

With an ultra narrow bezel design, HYUNDAI Video Wall Displays have reduced the width of screen-joining borders to only 3.5mm. Combined with the cutting edge function - which allows displaying the full picture content - the smart design of HYUNDAI Video Wall Displays ensures a maximum screen area with a minimum of viewable interruptions.

Color Calibration

HYUNDAI's calibration technology supports in minimizing color difference across the displays. Factory-tuned for brightness, color temperature and gamma, so you can experience the uniformity right out of the box.

Daisy Chain Control

Control commands can also be distributed over this daisy-chained network by RS232C/LAN to execute commands such as controlling, monitoring and even firmware update.

Wide Viewing Angle

Digital Signage usually installed in public place, wide viewing angle is very important. HYUNDAI Video Wall Display signage provides a clear and accurate information at any angle with an extra wide viewing angle of 178 degree.
